KNOX COUNTY TEACHERS

In Annual Session at Union College for Insti- tute Instruction

**Prof. T. J. Coates, of Rich-
mond, Instructor, Togeth-
er With Supt. Evans,
Have Made Week
Interesting.**

The annual Teachers Institute convened last Monday morning in the chapel of Union College for a week's work. The devotional exercises were led by Rev. Charles P. Eates of the Baptist Church after which the organization of the Institute was perfected and Miss Amanda Lambdin elected Secretary, after which the regular work of the session was taken up.

At 8 o'clock p.m. the teachers were given a reception at Brown Hall, where refreshments were served and all were given a royal reception.

Tuesday morning the devotional exercises were led by Dr. Hitchcock after which the regular work was again taken up.

In the evening at 8 o'clock Prof. Coates delivered a lecture at the Chapel of Union College to the teachers and citizens of the town who were present upon the "Ideals of Education" which was a gem and should have been heard by every citizen of our entire city and those who missed it missed a rare treat.

Wednesday morning the devotional services were led by Dr. T. B. Stratton and again the Institute work was taken up for the day, and at night an illustrated lecture on Sanitation and health was delivered by Prof. James P. Faulkner to the teachers and citizens who were present.

On Wednesday afternoon the Institute work was arranged as a specia feature for school trustees.

Thursday morning devotional exercises led by Rev. R. L. Brown and the regular work again taken up and at 8:00 o'clock p.m. an address by Dr. Porter, of Lexington, Subject: "Mothers, Wives and Sweethearts."

Friday morning devotional exercises will be led by Rev. I. E. Reid and the last day of the Institute work will be begun.

This week has indeed been a very profitable one to the teachers of Knox County and those who have received the greatest benefit from the weeks work are the ones who have given the closest attention to the work.

UNION COLLEGE, Barbourville, Kentucky.

The above picture is a miniature representation of some of the buildings and grounds of Union College. The College is co-educational. It is prepared to afford and will afford equal advantages to young men and young women. It has 84 PARATE college bouses for them. Regulars of the Faculty will live in these houses in close touch with the students, and thus be present and always ready and willing to give to the student any needed aid and attention. The Young Ladies' College Home will be occupied by the female members of the Faculty with the young lady students, while some of the male members of the Faculty will live in the Young Men's College Home with the young men students. The sanitary condition of the college is first class. To secure that condition, a well arranged private sewerage system, leading to the river, has been constructed and is in operation. The College has like-wise its private water system with deep water wells as water supply, college water plant, central heating and electric light plants with scientific advantages in toilets and baths. A Faculty not out-classed anywhere in earnest, constant, conscientious devotion to duty and the welfare of the student has been selected for the coming school year. And no effort will be omitted to make this year a highly profitable one to the student. The effort of the institution will be directed towards establishing in the life of the student, the Christian tone and habits of industry and economy. In the matter of expense to the student, emoluments, tuition, board, etc. Union College offers advantages which cannot suffer in any comparison with any other institution in the land. The coming school year will begin September 6th, 1910. For further particulars address

James D. Black, President, Barbourville, Kentucky.

POWERS AT PHILIPPI

Makes Powerful Speech and Gives Great Ovation.

Sulphurlick, Ky.—Hon. Caleb Powers filled his appointment at Philippi Saturday morning at 10 a.m. He was met by a large and enthusiastic crowd and given a great ovation. He spoke in the Philippi church and the large building was packed with people as never before. He made a powerful speech in vindication of himself and when he spoke of the great wrong done him while attempting to vindicate himself and the Republican party tears ran down the cheeks of many of his audience. If there was an Edwards man present, he was ashamed to let himself be known. There were a few Edwards democrats present who seemed to be sure because Mr. Edwards had failed in his scheme to let them into the primary. After Mr. Powers addressed, a Powers Club was organized with more than 100 members. This section of the county will give him almost a unanimous vote.—Tompkinsville, Ky.

Powers in Adair

Columbia, Ky., July 10, 1910. The Mountain Advocate, Barboursville, Ky.
Hon. Caleb Powers finished his list of appointments for Adair county last night. Knifery. No such crowds have ever greeted a candidate for office in this county, and the county is almost unanimously for him. At McGahe, where he spoke to a crowd of over 400 people, a test vote was taken which showed them to be unanimously for Powers. It was learned that there were two Edwards men in the audience, but they failed to show up. Powers friends expect him to get from 1400 to 1600 majority in Adair.

The Diary Industry of the United States.

According to the last year book of the Department of Agriculture, there are 21,720,000 milch cows in the United States. These are worth \$702,945,000.00. The magnitude of the industry can perhaps best be understood when it is considered that these cows produce nearly about \$1,000,000,000.00 worth of products.

There is no other branch of diversified agriculture so important to the progress of a community.

The fertility of the soil can best be maintained by the liberal use of barnyard manure and the dairy heard not only makes this possible, but dairying is also more remunerative than other branches of farming when properly carried on.

Dairying has made wonderful progress since the advent of the modern creamery and consumer of butter has not only been benefited by being furnished a more wholesale and palatable article of food, but the wife in the farm home has been relieved of the drudgery incident to making butter on the farm. Where formerly the cream was ripened and clotted into butter under conditions not conducive to fine quality in the finished product and in the majorities of cases by unskilled hands, now the cream is delivered to a modern creamery where conditions are suited to the purpose of making butter, and the result has been a wonderful improvement in the quality of our dairy products. As the quality has improved consumption has increased and the progress of dairying has been remarkable during the past decade.

The perpetuity of the country's greatness depends upon increasing the production of farm products from year to year, a result which not only furnishes our people with food but maintains the prosperity of our farming communities. Increase in production can only come through improved methods of agriculture and soil improvement. When it is considered that the dairy cow is the foundation for soil improvement and farming prosperity, her importance is best understood, and interest in her should not be confined to her owner. She is an important factor in the development and prosperity of our country.

Simpsonville Youth Believed to Have Expired from Heat Stroke.

Sherberville,—The 12 year-old son of J. H. Moore was found dead near the railroad track at Simpsonville. He had been sent to the drug store for some medicine and it is thought he must have been overcome with heat, as there is no mark on him to indicate that he had been struck by a train or met with any accident.

ELECTRIC LINE

Engineers at Work on Road From Newport to Lexington.

Cynthiana,—A corps of fourteen engineers and assistants have begun the work of surveying the route for the Newport and Lexington traction line, from this city towards Newport in Campbell county. The route has already been surveyed from here to Paris and is announced authoritatively that work will begin on the road in a very short time.

DISASTROUS FIRE.

Nit. Vernon,—Fire, which caused a loss of \$35,000, occurred here yesterday morning in the business section of town. The store burned were those of G. Baker, F. Kreuger & Son, and S. Davis. Some of the goods from Baker's and Davis' store were saved, but Kreuger's was a total loss. The fire is supposed to have been started by burglars who first robbed the Kreuger establishment. Kreuger's loss was estimated at \$17,000, with \$12,500 insurance; Baker's loss \$15,000, with \$10,500 insurance; and Davis' loss is estimated at \$3,000, with \$1,500 insurance.

Frankfort,—Gov. Wilson has issued a proclamation to the people of Kentucky calling upon them to contribute liberally to the people of Magoffin county, who live in the flooded district, and who lost all their belongings during the recent flood in the Licking river valley. The proclamation says that 480 families are homeless and penniless. E. L. Stephens, a banker of Salyersville, is designated by Gov. Wilson as the collector of the relief fund.

Killed Wife While Cleaning His Pistol.

Pineville,—Yesterday afternoon Dave McGeorge who lived several miles up the Cumberland river in this county, shot and instantly killed his wife. There were no witnesses to the tragedy, but McGeorge told some neighbors that he was cleaning his revolver when it accidentally discharged.

Electrocuted

Matt White was electrocuted at the Jellico Mines at Bertha, Ky., last Saturday night about 9:15 o'clock in a very peculiar manner. The accident as we gather it was in the following manner:

Mr. White and his family lived at Wilton and had gone to Bertha on one of the mine trolley cars with his family intending to attend the Odd Fellows Memorial Service there on Sunday.

Arriving at the opening of the mines at Bertha he stopped the motor and left his family to wait until he placed the motor in the place provided for it inside the mines. When he arrived at the motor house switch where he was to leave the motor he started to change his trolley pole but in doing so it is supposed that his foot slipped, his body came in contact with the powerful wire which struck him on the neck killing him instantly. When found his head was hanging over the main trolley wire and a large place burned in his neck, with blisters all over his body.

He leaves a wife and four children to mourn the loss.

The remains were interred in Mt. Olive Cemetery on Sunday afternoon.

The Official Organ of the Republican Party in Knox County.

We are authorized to announce

Hon. Caleb Powers
of Barbourville, Knox County, Kentucky, as a Candidate for Congress in the 11th Congressional District of Kentucky, subject to the Republican Primary to be held September 15, 1910.

**WHY THE DEMOCRATS
ARE FOR EDWARDS.**

Never in the history of the Democratic party did the Democrats of the Eleventh District support a party nominee with more enthusiasm than are they now supporting Mr. Edwards.

They are proclaiming his greatness (?) They are proposing to contribute to his campaign fund and tendering to him all the service that lies within their power.

Why all this enthusiasm? Why such interest among Democrats concerning a Republican Primary? Ah! the reason is very apparent. Is it not a well known fact that Mr. Edwards, while a member of Congress from this, the greatest Republican District perhaps in the United States, attempted to cause the defeat of Hon. W. O. Bradley for United States Senator and have J. C. W. Beckham elected in his stead?

Is that the spirit of a true Republican and the type of a man that you want to give your suffrage to perpetuate in office?

Nor is that all. We have it from a very reliable source, that Mr. Edwards has actually formed an alliance with the Democrats of the District and entered into a compact or agreement to the effect that they are to give him their support in an effort to defeat Caleb Powers, but in the event he should fail in that then, he Edwards, proposes to line up with the Democrats and use what influence he has to help them defeat Powers with Watt Hardin or some other well known Democrat.

How do you like such a combination, fellow Republicans of the Mountains? What do you think of such conduct, after you have three times elected this man by your votes to represent your interests in Congress?

Is that the kind of Republican you want to vote for? Is it any wonder that he refused to sign the petition for Powers' pardon for an alleged crime that he had not committed, when he knew that Mr. Powers never had had, nor never could have a fair trial, yet he did write a letter to the Governor in 1900, asking a pardon for E. K. Wilson, for a crime he had committed, that was as black as hell itself; and in that letter he stated: "I do not think that E. K. Wilson has ever had a fair and impartial trial, such as is contemplated by the laws of our State."

Is that the character of man that you want, fellow Republicans, to represent you in Congress?

Caleb Powers may have made mistakes, most people have. He has experienced unusually severe hardships and heavy burdens, but there is one thing that stands to his credit, he has never faltered when the test came; he has stood in the thickest of the fight for the principles of the Republican party. He is a true Republican and with him there is no compromise with dishonor or with Democrats. He was never known to desert his party or shirk his duty. No truer or nobler or bet-

THE SCHOOL WORK.

We had the pleasure of being present at a part of the exercises of the Institute this week and while there heard the timely suggestions offered by Prof. Coates, the Instructor.

His words were truly words of wisdom and if heeded by the body of teachers, who for one full week, sat under his instructions and listened to his timely teachings and advise, our schools throughout the entire county will doubtless show a marked improvement over past years.

Prof. Coates is indeed an able instructor, not only of children struggling to obtain an education but also an instructor of teachers who are preparing to go forth and impart knowledge to the rising generation. There was never a session during the entire week of the Teachers Institute but what was a profitable one to the teachers both old and young and those who devoted the greatest attention to the work of the Institute were the ones who derived the greatest good and the results will show in the work of their various schools during the school year just beginning.

We can cheerfully recommend Prof. Coates to any Superintendent in the State who may be looking for an ideal instructor to conduct the Institute work.

Supt. Evans selected wisely and will doubtless receive a vote of thanks of the teachers for providing so efficient and painstaking an instructor for the present meeting.

We call attention our readers this week to the Cayo Costa advertisement which appears on 4th page of this issue.

This is a proposition that should meet with a prompt response from those seeking an opportunity to make investment where it will make large returns. We only have 25 lots now that we can sell at the price quoted and if you are thinking of making an investment it would be the part of wisdom to secure what you want before the advance in price comes on them.

Union college occupies an important position this week in the Advocate and it should also occupy an important place in the minds of the young ladies and young gentlemen of Southwestern Kentucky who expect to seek an education. Her rates are more reasonable and her faculty as good as the best in our land. Read the large advertisement in today's issue.

(From London Sentinel, June 23.)

Edwards refused to sign the petition for Caleb Powers, whom he had always claimed to be a persecuted political prisoner. But we remember when a certain man that had come to London about the same time Edwards came from Kansas, was being tried for the murder of a Mountain girl, whose dying statement was that this man had seduced her under promise of marriage and performed an abortion upon her--when this man sought freedom, Mr. Edwards gladly wrote "in confidence" to the Governor, asking that he be pardoned. This shows clearly how much this man thinks of the Mountain People.

The conditions, as we have shown them by the above figures in Wayne, are a mighty strong index to the real condition throughout the entire District and when the vote is polled and counted, it will reveal that Edwards is the worst defeated man who has attempted to run for Congress in this District in many a long day.

FOR A NEW KENTUCKY HOME

To all Kentuckians Seeking Health, Wealth and Happiness!

Thousands of Kentuckians are Going to Oklahoma

Results For Everybody! Reward For Everybody! Recompense for Every Form of Toil, Mental and Manual, greets Every Seeker of Success.—Oklahoma's diadem of prosperity has no brighter gem than BARTLESVILLE. The giant young Metropolis of North-Eastern Oklahoma offers all Kentuckians the richest opportunities.

BARTLESVILLE, a dot on the map ten years ago had, in 1907, a population of 4,215. To-day its population exceeds 15,000; five years hence, it will be 50,000; ten years hence, 100,000.

If you are a manufacturer, get into a city where your efforts at town-building and your enterprise and public spirit will be appreciated and backed up—where a free site will be given you and you will have no investment for land; where your fuel or power will cost half what it is costing you now, and where insurance rate and taxes will be lighter. If your raw material is high-priced, or a mean competition is too hard, or your business too big for its present location, go to Bartlesville. Make a trip out there and investigate the labor supply and all other conditions of business.

If you are a farmer, go and get this good land while it is cheap. It will yield you a large income while you farm it, and when ready to sell it, you can get \$100 an acre for the land that cost you one-fourth or one-half that.

If you are a builder, go and erect the dwellings and business blocks needed for the rapidly-increasing population. Rents pay 20 to 40 per cent. on the buildings and you get the increase in the value of the real estate also.

Buy a Lot For a Home Now.—BARTLESVILLE will allow no men to be idle or moneyless. She puts every one to work, puts money in every pocket.

BARTLESVILLE district produces 100,000 Barrels of Oil every day. Mid-Continent oil field produced \$25,000,000 in one year.

New Law

Under a new law enacted by the last Legislature, the right is given to the Judge to assess the penalty for a crime instead of leaving it to the Jury, as in the past. Heretofore the Jury not only determined the guilt or innocence of the accused, but if found guilty, also fixed the punishment.

Now all the Jury does is to say whether or not the accused is guilty, and if guilty, the Judge fixes the punishment.

This law went into effect the first of this month.

Colored School Opens

The colored school of this city opened last Monday morning with Miss Mary Dee Robinson as instructor.

The trustees were present at the opening of the morning exercises, which were conducted by Rev. Talbert, of Jellico, Tenn.

COMMISSIONER'S SALE

KNOX CIRCUIT COURT

R. W. Cole, Adm., Plaintiff,

vs. Lila Cole etc., Defendant.

By virtue of a judgment and order of sale in the above styled case rendered at the term of the Knox Circuit Court 1910, the undersigned Master Commissioner will sell to the highest bidder on a credit of six months, at the Court house door in Barbourville, Ky., on Monday July 25, 1910, between the hours of 12 o'clock noon and 3 o'clock p.m. the following described to wit: a tract of land situated on the public square in the city of Barbourville, Ky., and is bounded as follows:

Beginning on the East side of the Public Square, 30 ft. South of the Southwest corner of the lot of J. O. Gibson on which is his new brick store building; thence a straight line in a southwardly direction one hundred and seventy feet to Dushman street; thence with that street an eastwardly direction one hundred and twenty seven feet to Walnut street, opposite the residence now occupied by Mrs. Martha Riley; thence a Northwardly direction with Walnut street one hundred and seventy feet to a point thirty feet south of the Southeast corner of the said J. O. Gibson lot; thence a westwardly direction with the Gibson lot but thirty feet from same, One hundred and thirty seven feet to the beginning.

This sale will be made to recover for defendant Lila Cole the sum of \$20,000, with interest at 6 percent from April 9, 1910, until paid, together with the cost of this action and of this sale. The purchaser will be required to execute to the plaintiff in this action a bond with good and sufficient security bearing interest from date of sale until paid and having the force and effect of a judgment. A lien will be retained on the property until the purchase money is paid in full.

Given under my hand this 6th day of July 1910.
